Accella Polyurethane Systems
Declaration of VOC Content Per EPA method 24 ASTM D2369

As a representative of Accella Performance Materials / Accella Polyurethane Systems, I hereby declare the following VOC content for the following polyurethane/polyurea elastomers as determined by the aforementioned test method.

| | |
|--------------------------|-----------------|
| Intellathane 520 90A UV: | Less than 5 g/L |
| Bullet Liner 1: | Less than 4 g/L |
| Bullet Liner 2: | Less than 6 g/L |

We believe these results to be a valid representation of VOC content based on this accepted methodology.

Sincerely,

Jon Purcell
Product Integrity Manager
